

4th Workshop in Behavioral and Experimental Health Economics Cologne, December 8-9, 2016

Following the successes of previous workshops in Oslo, Hamilton, and Essen we are pleased to host the fourth Workshop on Behavioral and Experimental Health Economics in Cologne. The workshop brings together economists who apply behavioral economics and experimental methods in health economics research to present and discuss their research papers.

We welcome contributions on all topics within health economics applying experimental methods, be it laboratory or field studies, and behavioral economics modeling. Topics of this year's workshop focus on provider incentives, patient behavior, and risk preferences in health (Special CEAR Session on Risk organized by Glenn Harrison).

For each paper, we allocate one hour (40 min. presentation, 10 min. discussion by discussant, 10 min. general discussion) to provide participants with the opportunity for an in-depth presentation of their work.

Submission

If you are interested in presenting a paper, please submit either the full paper (if available), or an extended abstract of up to 1000 words that addresses each of the following: objectives, methods, results, and conclusions. Please send submissions to: beh-workshop@wiso.uni-koeln.de

Deadline for abstract submission: **September 4th, 2016**. Authors will be notified regarding the acceptance of their paper by October 7th, 2016.

Participation fee

For presenters and discussants, the participation fee is waived. Other participants pay €200. The fee also covers meals during the workshop and the workshop dinner.

Scientific Committee

Matteo M. Galizzi (LSE)
Geir Godager (University of Oslo)
Glenn Harrison (Georgia State University)
Heike Hennig-Schmidt (University of Bonn)
Jerry Hurley (McMaster)
Albert Ma (Boston University)
Daniel Wiesen (University of Cologne)

Local organizers

Daniel Wiesen and Heike Hennig-Schmidt
