Call for abstracts

**Fourth Early Career Workshop of the DGGÖ Working Group
"Health Economics and Development Cooperation"
(Ausschuss Entwicklungszusammenarbeit)**

With this announcement, we would like to invite early career researchers (doctoral students and early post-docs) to submit a paper relevant to the theme of Health Economics and Development for our fourth workshop fully dedicated to early career health and development economists working at the crossroad between the two fields.

Replicating the model already implemented in other academic societies, we will select (among all submissions) 6 to 8 papers, invite the student as lead author to present the paper and a senior researcher to act as discussant. In addition, policy makers from German development cooperation agencies will be invited to attend the event, as a means of providing students with additional feedback on the policy relevance of their studies and the appraisal of their findings. PhD students who are not presenting own work, but are interested to hear what feedback is provided to their colleagues are invited to join the event.

We will host the workshop on **Oct 24th, 2022** at Heidelberg University Hospital (room yet to be defined). Those interested to attend also the annual meeting of the Working Group are welcome to stay for one night in Heidelberg and join us on the following day for a broader scientific and policy exchange.

Key dates for the event are listed below:

Submission of an extended structured abstract (up to 800 words) or of the complete paper draft (if possible): **July 31st, 2022**

Notification of acceptance to the discussion: **Aug 15th, 2022**

Confirmation of attendance (independently from presentation of own paper): **Sept 30th, 2022**

Submission of complete paper draft: **Oct 10th, 2022**

We are unable to cover travel costs through the organization of the event, hence attendees have to seek own travel funding.

For any question pertaining to the scientific content, please contact: Manuela De Allegri (manuela.de.allegri@urz.uni-heidelberg.de)

Please submit your abstract to Hoa Nguyen (hoa.nguyen@uni-heidelberg.de)
